

SNiPER® provides hospital disinfection, multi-surface cleaning, and odor elimination. **SNiPER®** disinfects as it cleans, eliminates odors and is fragrance free.

Directions for use: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Gently shake 2-3 times prior to use.

Pre-Cleaning Instructions: Remove gross filth and heavy soil by cleaning. Thoroughly wet surfaces, by spray, sponge, mop, or immersion, with **SNiPER®** on to soiled surfaces then thoroughly clean and wipe away gross filth with sponge or cloth.

Disinfect Hard Non-porous Surfaces: For disinfection of hard non-porous surfaces such as glass, plastic, painted or finished wood, chrome, stainless steel, polyurethane coated hardwood floors, glazed ceramic tile, sealed concrete and linoleum floors.

Disinfect Items such as: Appliances, bed frames, wheelchairs, chairs, counters, tables, doorknobs, cabinet handles, handrails, light switch covers, tubs, showers, toilets, faucets, sinks, waste containers, etc. Spray **SNiPER®** at full strength, wetting surfaces thoroughly. Allow surfaces to remain wet for 5 minutes for disinfection of Gram-negative bacteria, Gram-positive bacteria, and nosocomial bacteria, **Salmonella enterica** ATCC 10708, **Staphylococcus aureus** ATCC 6538, **Pseudomonas aeruginosa** ATCC 15442, Methicillin Resistant **Staphylococcus aureus** (MRSA) ATCC 33591, **Vancomycin Resistant Enterococcus faecalis** (VRE) ATCC 51299.. Allow surfaces to remain wet for 10 minutes for virus inactivation of **Swine Influenza virus, Type A (H1N1)** ATCC VR-333, and **Canine Parvovirus** ATCC VR-953. **SNiPER®** kills **HIV-1** and **HBV** on surfaces previously soiled with blood / body fluids. In healthcare or other settings where there is a likelihood of surfaces / objects to be soiled with blood and / or bodily fluids with the potential of the transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS) and Human Hepatitis B Virus follow the following instruction for cleaning and decontamination of surfaces.

Disposal of infectious materials: Blood and other body fluids must be autoclaved and disposed of according to Federal, State, and local regulations for infectious waste disposal.

Personal Protection: Use disposable latex gloves, gowns, masks or eye covering when handling items soiled with blood or bodily fluids.

Contact Time: Allow surfaces to remain wet for 5 minutes for the inactivation of Human Immunodeficiency Virus Type 1 (HIV-1) and Human Hepatitis B Virus.

Areas for use include: Hospitals, Long-Term care facilities, out-patient clinics, surgery centers, rehab facilities, pharmacies, laboratories, ambulances, homes, schools, daycare's, gyms, locker rooms, salons, restaurants, boats, ships, airplanes, trains, buses, automobiles, Industrial processing plants, poultry hatcheries, dairies, veterinary facilities, pet grooming and boarding, and animal pens.

Hospital Disinfectant

All Purpose Cleaner & Odor Eliminator

ACTIVE INGREDIENTS

To Disinfect Poultry Houses and Animal Pens: Remove all animals and feed from premises. Remove all litter and manure from floors, walls, and surfaces of barns, stalls, chutes, and other facility fixtures occupied or traversed by animals. Empty all troughs, racks, and other feeding and watering appliances. Thoroughly clean all surfaces and rinse with water. Saturate to clean halters, ropes, and other types of equipment used in handling and restraining animals, as well as forks, shovels, and scrapers used in removing litter and manure. Thoroughly spray all non-porous hard surfaces with **SNiPER®** and let stand for 5-10 minutes for disinfection. Allow to air dry. Ventilate closed spaces and drain pooled product and / or rinse standing product with potable water.

To Deodorize: Apply **SNiPER®** at full strength to eliminate odors in shoes, furniture, mattresses, curtains / drapes, carpets, rugs, sports equipment, helmets, gloves, body armor, and vehicles (Always check for fabric color fastness in an inconspicuous area). **SNiPER®** eliminates odor associated with smoke from tobacco or fires, musty odors, body odors, stale-cooking odors, and odors from urine. Spray **SNiPER®** at full strength, using with spray bottle or electric / pump atomization sprayer, thoroughly wetting surfaces and let air dry for residual deodorizing action. **SNiPER®** must contact the source or cause of the odor to be effective. For Urine in carpets, saturate the carpet, with **SNiPER®**, to the pad for complete deodorization.

ENVIRONMENTAL HAZARDS: Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other water unless in accordance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to the discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in original closed container in a cool, dry place away from heat and open flame.

Pesticide Disposal: Waste resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Handling: Nonrefillable Container. Do not reuse or refill this container.

(For containers less than or equal to 2.5 gallons): Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Fill container 1/4 full with water and recap. Shake for 10 seconds. Drain for 10 seconds after the flow begins to drip. Follow Pesticide Disposal instructions for rinse disposal. Repeat procedure two more times. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration.
